

I'm writing in regards to K-Love and the MB Docket No. 04-233. As a member of the local community in the Hampton Roads area, K-Love provides me with the only source for positive and encouraging christian faith based radio.

Hundreds of members of my church and other churches listen to K-Love in our area, and without the valuable service they provide, listeners would have no alternatives for faith based radio.

The service provided for K-Love is in the best overall interest of all communities it reaches. Spreading positive and encouraging music, and helping to spread the word of God. This is a safe family alternative to other radio stations. Families never have to worry about what their children might hear on the radio when tuned into K-Love.
